

Annex A: ICD-PM groups and ICD-10 codes for antepartum deaths

In order to group and tabulate a perinatal death, the user needs information on the timing of the perinatal death (antepartum/intrapartum/neonatal) as well as the ICD-10 cause of death code. The information provided about the cause of death and the maternal condition should meet the ICD-10 coding rules for assigning a specific code before any tabulation can be undertaken. The codes included below are indicative for tabulation of data; for coding deaths, ICD-10 version:2016 and ICD-10 volume 2: instruction manual (2010) should be utilized.⁴
